1. Insurance Agreement:

**Parents:** You should be aware that lab work at Massanutten Technical Center has a greater possibility of injury to a student than if he/she were in regular classes at his/her home high school. MTC provides no insurance coverage in case of student injury. All who enroll at MTC must have some form of insurance protection. It is highly recommended for each student to be covered by a policy.

If you buy school insurance at either the home high school or at MTC, your son or daughter will receive coverage at BOTH locations. You do not have to purchase additional school insurance if your son/daughter is insured through a private plan. If you have private coverage, please list the insurance company below. **Students will not be permitted to participate in any lab activity until insurance verification is completed below.** In this packet, information regarding school insurance is available.
